

1 July 2015

## HFSmartGate available for installation under Linux O.S.

Dear Sirs,

We inform you that we upgrade the availability of the HF SmartGate installation program for your own hardware, so that, as of **July 1st 2015** it will also be available for download and installation under Linux O.S.

Specifically, this software has been tested and passed the Conformance Test for the following operating system:

- Solaris 10 x86 (32 bit)
- Oracle Linux 6.5, 7.0 and 7.1
- RedHat Enterprise Linux 6.5 and 7 update 1

In case you want to install under Linux O.S., you must install **HF Gate 9.70.24 ( Com)-9.88.03** or higher.

For any questions, contact the Access to Market Department at [aaee@grupobme.es](mailto:aaee@grupobme.es)
